Videxio + Google Hangouts Meet

For Hangouts Meet users, the interoperability service lets you choose how you want to join a meeting.

It also makes it easy for non-Meet users to join your meetings using the browser or device of their choice - Skype for Business, videoconferencing systems from the likes of Cisco or Polycom, Videxio clients or a range of browsers including Chrome and Safari. The result is simple, easy video collaboration for internal and external meetings.

WAYS TO CONNECT TO GOOGLE HANGOUTS MEET WITHOUT VIDEXIO:

+ Hangouts Meet mobile app for Android and iOS
+ Hangouts Meet hardware
+ Chrome web browser
+ PSTN audio dial-in

VIDEXIO EXPANDS THESE OPTIONS TO LET ANYONE CONNECT TO GOOGLE HANGOUTS MEET VIA:

+ SIP/H.323 video room systems
+ Skype for Business
+ Windows desktop app
+ Mac desktop app
+ Firefox web browser
+ Safari web browser
+ Opera web browser
+ Edge web browser

OTHER FEATURES INCLUDE:

+ Easy to schedule video meetings through Google Calendar with interoperability options automatically included
+ Secure meetings with external participants via gateway service
+ Full integrated with G Suite

It's easy to get started. Buy the Interoperability service from a Google or Videxio channel partner. Learn more at **videxio.com/google** or contact **sales@videxio.com**
