

WHY VIDEXIO?

Professional video calls and meetings from anywhere

We believe there is a better way to work. A way that helps people and organizations thrive, so they can do more, do better, and fulfill their purpose.

Collaboration is a big part of that. We make it easy to talk to anyone – inside or outside your company – so you can get more work done, together. Our cloud video meeting service is simple, easy to set up, and even easier to use. You won't see any hidden charges here. Just a powerful, reliable tool that connects you to the world so you can get back to business.

- + **Reliable HD-quality:** Powered by a dedicated global video network.
- + **Use any device:** Host and join meetings from conference rooms, huddle rooms, PC/Macs, browsers, or mobile devices.
- + **Join any meeting:** Join meetings hosted on Google Hangouts Meet, Skype for Business, Zoom, BlueJeans, WebEx, Pexip, and Videxio in a single tap.
- + **Works with G Suite and Office 365:** Seamlessly integrates with existing workflows to connect users and devices in the cloud. Ideal for Google Hangouts Meet and Skype for Business.
- + **Call others directly:** Make point-to-point calls from your browser, desktop, or room system.
- + **Join plugin-free:** Anyone can join from any major browser without downloading a plugin.
- + **Get more from video systems:** Protect against end-of-life notices by connecting endpoints from Polycom and Cisco to our cloud service.
- + **Enterprise-ready:** Single sign-on, wireless 1080p content sharing, fully encrypted, GDPR-compliant.
